What is BIOGEL™?

BIOGEL™ is a unique blend of all natural organic herbs and minerals that contains no antibiotics or steroids. BIOGEL™ is proven to kill most bacteria and fungal pathogens.

How does it work?

BIOGEL™ has proven effective in promoting the healing of bites, burns, cuts, skin abscesses and ulcerations, skin rashes, hot spots, cinch fungus and surgical incisions while encouraging natural hair regrowth and minimal scarring. BIOGEL™ provides for a cooling, desensitizing effect when applied and reduces inflammation. BIOGEL™ promotes the regeneration and rehabilitation of tissue.

DIRECTIONS FOR USE:

For best results, apply BIOGEL™ at least once a day thoroughly covering sores or infected areas. For acute conditions, apply BIOGEL™ up to four times daily. If possible, rub in gently until partly absorbed. For lasting protection, do not wash off. For best rehabilitation of skin, apply BIOGEL™ until all signs of condition has disappeared. If condition persists or worsens, consult your veterinarian.

ACTIVE INGREDIENTS:

Clove 0.7%, peppermint 0.5%, cinnamon 0.4%, pimenta 0.2%, spearmint 0.2% and neroli 0.1%.

Storage: Heat sensitive. Store below 86°F (30°C).
